CONTENTS

VOLUME 11 (1971)

A new concept of spermatogonial stem-cell renewal in the mouse and its relationship to genetic effects
by E. F. OAKBERG (Oak Ridge, Tenn., U.S.A.) (Rec'd August 24th, 1970) 1–7

Comparative aspects of the effects of radiation during oogenesis
by T. G. BAKER (Edinburgh, Great Britain) (Rec'd July 10th, 1970) 9–22

Chinese hamster cell cultures
III. Characterization of X-ray-induced forward mutations in Mammalian cell genetics.
by ERNEST H. Y. CHU (Oak Ridge, Tenn., U.S.A.) (Rec'd September 17th, 1970) . . 23–34

Comparison of radiation- and chemically-induced dominant lethal mutations in male mice
by U. H. EHLING (München, Germany) (Rec'd August 20th, 1970) 35–44

Species comparisons concerning radiation-induced dominant lethals and chromosome aberrations
by MARY F. LYON AND BARBARA D. SMITH (Harwell, Berks., Great Britain) (Rec'd August 31st, 1970) 45–58

Producing and detecting paracentric chromosomal inversions in mice
by THOMAS H. RODERICK (Bar Harbor, Maine, U.S.A.) (Rec'd September 1st, 1970) 59–69

Radiation-induced translocations in spermatogonia of mice
by A. LÉONARD (Mol, Belgium) (Rec'd July 10th, 1970) 71–88

Natural mutation rates in the house mouse: Estimates for five specific loci and dominant mutations
by GUNTHER SCHLAGER AND MARGARET M. DICKIE (Bar Harbor, Maine, U.S.A.) (Rec'd July 10th, 1970) 89–96

The mutagenic effectiveness of fast neutrons in male and female mice
by A. G. SEARLE AND RITA J. S. PHILLIPS (Harwell, Didcot, Berks., Great Britain) (Rec'd August 4th, 1970) 97–105

Definition of functional units in a small chromosomal segment of the mouse and its use in interpreting the nature of radiation-induced mutations
by LIANE B. RUSSELL (Oak Ridge, Tenn., U.S.A.) (Rec'd August 25th, 1970) 107–123

Testing for recessive lethals in mice
by K. G. LÜNING (Stockholm, Sweden) (Rec'd July 10th, 1970) 125–132

Symposium on Mammalian Radiation Genetics, July 7–9th, 1970: Summary and synthesis
by A. G. SEARLE (Harwell, Didcot, Berks., Great Britain) (Rec'd September 8th, 1970) 133–147

Another two genes controlling mitotic intragenic recombination and recovery from UV damage in *Aspergillus nidulans*
I. UV sensitivity, complementation and location of six mutants
by J. J. H. FORTUIN (Utrecht, The Netherlands) (Rec'd August 4th, 1970) 149–162

Production of recessive lethals in Drosophila by viruses non-infectious for the host
by S. GERSHENSON, Y. N. ALEXANDROV AND S. S. MALIUTA (Kiev, U.S.S.R.) (Rec'd July 7th, 1970) 163–173

Repair of alkylation-induced damage in *Escherichia coli* and its bacteriophage λ
by A. RONEN AND J. ATIDIA (Jerusalem, Israel) (Rec'd June 8th, 1970) 175–179

Differential mutation of the β-galactosidase gene of *Escherichia coli*
by R. D. Brock (Canberra, A. C. T., Australia) (Rec'd August 4th, 1970) 181–186

The mechanism of ring chromosome formation and somatic crossing-over
by N. P. Dubinin and L. S. Nemtseva (Moscow, U.S.S.R.) (Rec'd March 19th, 1970) 187–202

A screening procedure for detection of putative deletions in proximal heterochromatin of Drosophila
by Madeleine C. Baldwin and David T. Suzuki (Vancouver, B. C., Canada) (Rec'd July 13th, 1970) 203–213

Dominante Letalmutationen in der Nachkommenschaft bestrahlter männlicher Mäuse
I. Untersuchung der Dosiswirkungsbeziehung und des Unterschiedes zwischen Ganz- und Teilkörperbestrahlung bei meiotischen und postmeiotischen Keimzellenstadien
von Johannes Horst Schröder und Otto Hug (München, Germany) (Eingegangen am 3. August, 1970) 215–245

The mutagenic specificities of pentachloronitrobenzene and captan, two environmental mutagens
by Colin H. Clarke (Norwich, Great Britain) (Rec'd October 28th, 1970) 247–248

A temperature-sensitive mutant of *Salmonella typhimurium*
by A. G. Skavronskaya, V. N. Pokrovsky, N. V. Volkova and I. V. Andreeva (Moscow, U.S.S.R.) (Rec'd August 24th, 1970) 249–252

Visualization by scanning electron microscopy of achromatic lesions ("gaps") induced by X-rays in chromosomes of *Vicia faba*
by W. Scheid and H. Traut (Münster, Germany) (Rec'd June 23rd, 1970) 253–255

Chromosomal rejoining in the absence of unscheduled DNA synthesis
by James Shaeffer, Russell A. Vincent Jr. and Timothy Merz (Baltimore, Md., U.S.A.) (Rec'd September 30th, 1970) 256–257

The cytogenetic effect of cyclophosphamide on a Burkitt tumour cell line (EB_4) *in vitro*
by N. P. Bishun (London, Great Britain) (Rec'd September 15th, 1970) 258–260

L-Cystein als Protektor gegen die aberrationsauslösende Wirkung von 8-Hydroxychinolinsulfat in menschlichen Leukocytenchromosomen
von Erich Gebhart (Erlangen, Deutschland) (Eingegangen am 22. September, 1970) 261–262

Letter to the editor
by Bernard H. Braun (Beltsville, Md., U.S.A.) (Rec'd September 29th, 1970) . . . 263

Another two genes controlling mitotic intragenic recombination and recovery from UV damage in *Aspergillus nidulans*
II. Recombination behaviour and X-ray-sensitivity of *uvsD* and *uvsE* mutants
by J. J. H. Fortuin (Utrecht, The Netherlands) (Rec'd November 17th, 1970) . . . 265–277

Changes in the pattern of reversion of a proline-requiring mutant of *Salmonella typhimurium*
by P. F. Smith-Keary (Dublin, Ireland) (Rec'd October 16th, 1970) 279–292

Ultraviolet sensitivity of *Haemophilus influenzae* transforming DNA
I. Effects of genetic mismatch and target size
by Rufus S. Day III and Claud S. Rupert (Dallas, Texas, U.S.A.) (Rec'd October 14th, 1970) 293–311

Ultraviolet sensitivity of *Haemophilus influenzae* transforming DNA
II. A reextraction study of integration and repair
by Rufus S. Day III and Claud S. Rupert (Dallas, Texas, U.S.A.) (Rec'd October 14th, 1970) 313–326

Induction of mitotic gene conversion by mutagens
by F. K. Zimmermann (Freiburg i. Br., West Germany) (Rec'd August 6th, 1970) . . 327–337

Comparative studies of the biological effectiveness of nitrogen mustards, ethyleneimine and γ-rays
by M. M. Nawar, C. F. Konzak and R. A. Nilan (Pullman, Washington, U.S.A.) (Rec'd September 7th, 1970) 339–346

Induction of sex chromosome nondisjunction by elevated temperature
by Rhoda F. Grell (Oak Ridge, Tenn., U.S.A.) (Rec'd October 6th, 1970) 347–349

Feed efficiency in swine following paternal X-irradiation
by P. D. MULLANEY AND D. F. COX (Ames, Iowa, U.S.A.) (Rec'd November 16th, 1970) 350–352

The problem of viability estimates in tests for reverse mutations
by C. AUERBACH AND D. RAMSAY (Great Britain) (Rec'd September 15th, 1970) . . 353–360

The isolation and genetic classification of UV-sensitive mutants of *Schizosaccharomyces pombe*
by M. SCHÜPBACH (Bern, Switzerland) (Rec'd September 10th, 1970) 361–371

Characterization of spontaneous mutations of mitotic and meiotic origin in the *ad-1* locus of *Schizosaccharomyces pombe*
by J. FRIIS, F. FLURY AND U. LEUPOLD (Copenhagen, Denmark, and Bern, Switzerland) (Rec'd September 21st, 1970) 373–390

Segregation following interchange induced by irradiating mature oocytes of *Drosophila melanogaster*
by NANCY BUSBY (Riverside, Calif., U.S.A.) (Rec'd December 7th, 1970) 391–396

Chemische Konstitution und mutagene Wirkung
VI. Induktion dominanter und rezessiv-geschlechtsgebundener Letalmutationen durch Aryldialkyltriazene bei *Drosophila melanogaster*
von EKKEHART VOGEL (Freiburg/Br., Germany) (Eingegangen am 18. September 1970) 397–410

Chemically induced dominant-lethal mutations and cell killing in mouse oocytes in the advanced stages of follicular development
by W. M. GENEROSO, SANDRA W. HUFF AND SANDRA K. STOUT (Oak Ridge, Tenn., U.S.A.) (Rec'd October 6th, 1970) 411–420

The response of Chinese hamster cells to *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine
by S. C. BARRANCO AND R. M. HUMPHREY (Houston, Tex., U.S.A.) (Rec'd September 21st, 1970) 421–429

Induction of recessive lethals in *Drosophila melanogaster* by aflatoxin B_1
by MARION J. LAMB AND LORNA J. LILLY (London, Great Britain) (Rec'd January 12th, 1971) 430–433

Inactivation of genetic markers in transforming DNA of *Bacillus subtilis* by an enzyme which preferentially splits the guanine–guanine bonds in DNA
by HISANORI EZOE, HIUGA SAITO AND YONOSUKE IKEDA (Tokyo, Japan) (Rec'd September 25th, 1970) 434–437

Reversion of an *amber* mutant by mutagenic DNA polymerase of bacteriophage T_4
by F. A. J. DE VRIES, CH. J. H. IDENBURG AND A. DE WAARD (Leiden, The Netherlands) (Rec'd January 13th, 1971) 438–440

Genetic effects of LSD in *Drosophila melanogaster* sperm
by BEATRIZ MAZAR BARNETT AND ENZO R. MUÑOZ (Buenos Aires, Argentina) (Rec'd November 25th, 1970) 441–444

Differences in radiosensitivity of the chromosomes of rat kangaroo (*Potorous tridactylis*) cells *in vitro*
by H. VAN STEENIS (Leiden, The Netherlands) (Rec'd December 7th, 1970) 445–447

Author Index, Vol. 11 (1971) 448

Subject Index, Vol. 11 (1971) 449–452

Contents, Vol. 11 (1971) 453–455
